GRAPHICAL PROFILE · SPEC.md

ECHOES OF ELYSIUM

TextcolorghostVisual identity guidelines

Logo · 3 accents · 2 typefaces · HTML headings · Icons

VERSION 2.0 · PDF · 2026

Deliverable format: **.pdf** (this file)

00 · Spec checklist

This profile answers every item in `docs/brand/spec.md`:

1. Logo / application icon on **black** and **white** grounds
2. **3** accent colours — HEX, RGB, and HSL
3. **2** typefaces
4. Sizes for all HTML heading tags (`h1`–`h6`)
5. Icon package
6. File format: **PDF**

01 · Logotyp & applikationsikon

Primary mark: **app icon** (`assets/icon/app_icon.png`) plus the Comfortaa wordmark. The icon must remain readable as a launcher tile on both dark and light system chrome.

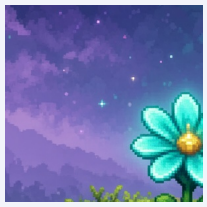

On black (default / dark UI)

ECHOES OF ELYSIUM

Preferred · dark ground

On white (light / print / lock screen)

ECHOES OF ELYSIUM

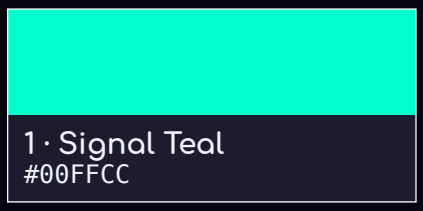

Light ground · ink wordmark

Rules

- Keep clear space ≥ 12% of icon width on all sides.
- Do not recolour the icon art; place it on solid black or white only.
- On light grounds, set the wordmark in Void Ink `#06060F` — never Signal Teal on white for long titles.
- Source: `assets/icon/app_icon.png` (512×512). Generated launcher assets via `flutter_launche`

02 · Accent colours (3)

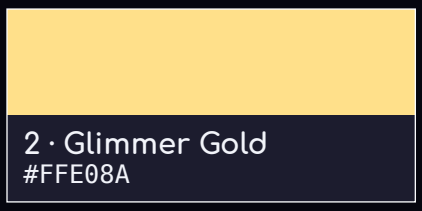

Exactly **three** brand accents. Each lists HEX, RGB, and HSL. Foundations (Void Ink / Panel / Ghost) are staging colours, not accents.

1 · Signal Teal
#00FFCC

rgb(0, 255, 204)

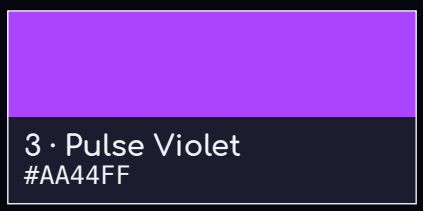

hsl(168°, 100%, 50%)

2 · Glimmer Gold
#FFE08A

rgb(255, 224, 138)

hsl(44°, 100%, 77%)

3 · Pulse Violet
#AA44FF

rgb(170, 68, 255)

hsl(273°, 100%, 63%)

Name	Hex	RGB	HSL
Signal Teal	#00FFCC	0, 255, 204	168°, 100%, 50%
Glimmer Gold	#FFE08A	255, 224, 138	44°, 100%, 77%
Pulse Violet	#AA44FF	170, 68, 255	273°, 100%, 63%

Usage

- **Signal Teal** — primary UI chrome, titles, confirms, Phase.
- **Glimmer Gold** — XP, currency, secondary highlights.
- **Pulse Violet** — special abilities (Pulse / Anchor), Gaia-adjacent cues.

03 · Typefaces (2)

Exactly **two** faces:

1 · Comfortaa Bold — display / headings / wordmark

2 · DejaVu Sans — body, UI labels, tables

Comfortaa for H1–H3 and the title mark. DejaVu Sans for H4–H6, paragraphs, chips, and data.

Role	Face	Notes
Display	Comfortaa Bold	Wordmark, section titles, H1–H3
UI / body	DejaVu Sans	H4–H6, copy, HUD chips, forms

04 · HTML heading sizes

Root: `html { font-size: 16px; }` — sizes below are for h1–h6. Comfortaa for H1–H3; DejaVu Sans for H4–H6.

Tag	Size	rem	Weight	Face / tracking
h1	40 px	2.5 rem	700	Comfortaa · letter-spacing 0.04em
h2	32 px	2.0 rem	700	Comfortaa · 0.03em
h3	24 px	1.5 rem	700	Comfortaa · 0.02em
h4	20 px	1.25 rem	700	DejaVu Sans
h5	16 px	1.0 rem	700	DejaVu Sans
h6	14 px	0.875 rem	700	DejaVu Sans · uppercase OK · 0.08em

Specimen

H1 · Echoes of Elysium

H2 · Colony forests

H3 · Signal lock

H4 · Mission brief

H5 · Status line

H6 · MENU · PHASE · WARD

CSS sketch

```
h1 { font-family: Comfortaa, sans-serif; font-size: 2.5rem;  font-weight: 700; letter-s
h2 { font-family: Comfortaa, sans-serif; font-size: 2.0rem;  font-weight: 700; letter-s
h3 { font-family: Comfortaa, sans-serif; font-size: 1.5rem;  font-weight: 700; letter-s
h4 { font-family: "DejaVu Sans", system-ui, sans-serif; font-size: 1.25rem; font-weight
h5 { font-family: "DejaVu Sans", system-ui, sans-serif; font-size: 1.0rem;  font-weight
h6 { font-family: "DejaVu Sans", system-ui, sans-serif; font-size: 0.875rem; font-weigh
```

05 · Ikonpaket

- **Package:** Flutter **Material Icons** (`Icons.*` from `package:flutter/material.dart`)
- **Declared:** `cupertino_icons: ^1.0.2` in `pubspec.yaml` (available; UI currently uses Material)
- **Usage:** outlined where possible (`Icons.close`, `Icons.menu`, `Icons.lock_outline`, `Icons.storefr` …)
- **Style:** single-colour glyphs tinted with Ghost / accents — no multicolour icons in chrome

> **Material Icons**
> Primary icon set for HUD, menus, and panels. Do not mix a second icon family in the same screen.

06 · Filformat

- **Required format:** PDF
- **This file:** `docs/brand/echoes_of_elysium_graphical_profile.pdf`
- **Source:** `docs/brand/echoes_of_elysium_graphical_profile.tex`
- **Build:** `xelatex echoes_of_elysium_graphical_profile.tex`
